

**Standard
(Right Hand) Hold**

What entry to the Hold? (Standard Right Hand Hold)

1. Track inbound to the hold
2. Is it a Right hand hold? (If left hand reverse the Parallel and Teardrop)
3. Find out the reciprocal (outbound Heading)
4. Look what sector it is in.
5. This is the entry required for the hold

e.g.

Hold on the 270° radial. Tracking 360°

= Hold entry is a Parallel entry.
